

THE EMBARK WORLD ACADEMY

EMBARK
BEYOND

EMBARK BEYOND

Introducing the Embark World Academy! This program was developed to deliver a variety of private homeschool options to help students maintain grade-level skills, while also exploring new passions with global exposure through extra-curricular experiences.

Discover your passions
from a global perspective.

Parents choose one of three options for the academy: In-home private teacher, virtual one-on-one home school, or as extra-curricular to complement their existing academic agenda. Each course is sponsored by a local luxury hotel and taught by their in-house experts or local connections.

EMBARK BEYOND

Think of this as a live master class for students K-12. Each course is sponsored by a luxury hotel and taught by their in-house experts or local connections.

EXTRA-CURRICULAR ACTIVITIES

All activities will be live and virtual, with an option to go in-person when the world opens! All can be commissioned on a private basis or a small group of up to 5 other kids in the same age bracket. Courses last between 8-12 weeks and meet 1-2 times each week. Most activities also include an invitation to stay at the sponsoring hotel for at least 2 nights with their family. Prices range from \$800 a semester for a shared class to \$5,000 a semester for a private class.

Meet Our Educational Director

Mr. Alan Cohen

For this initiative, Embark World Academy has partnered with Alan Cohen, Co-Chair Harvard Principals' Center Advisory Board, Emeritus as our educational director. Mr. Cohen will meet one-on-one with each family to tailor the perfect setup for every student.

Mr. Cohen has also collaborated with our instructors from around the world to enhance their courses with added skills. This way a cooking class becomes a fun and engaging way to teach math and language. A fashion marketing class develops writing and reading while art infuses history and even science
